### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: claim 30 and dependent claims are directed to the apparatus including all the structure for performing the allowed process of claim 1 of parent patent 6,793,824, the combination of structure, including the hydrophilic membrane with the vapor permeation properties and the water source containing the listed contaminants retained by the membrane with the vapor transfer rate as claimed, is not disclosed or suggested in the prior art of record. Claim 43, and dependent claims, directed to a humidity augmenting apparatus, which also includes limitations of the allowed claim 1 of parent patent 6,793,824, in combination with the structure of allowed claims 3-5 of patent 6,484,439, which combination of limitation including the vapor permeable hydrophilic membrane retaining the contaminants listed in the claim, are not suggested or disclosed in the prior art of record. The method of claim 60 includes all the limitations of claim 1 of parent 6,793,824, further narrowed by the differential transfer rate and the enclosed chamber, and is therefore allowed.
2. Patent 6,453,610 is also related to the application no claims in common where found.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
